

## Facilities Report 2016

I would like to pass on my thanks to those that came and helped at the Club clean-up, Regatta set up, RYA Youth event set up and the pontoon cleaning.

I would also like to thank Quay Service Solutions (John Hagan) for the excellent service provided this year, both with the Club facilities and the Club organised craning and Winter storage.

The craning days, both in and out, were gifted with perfect weather and exemplary planning by John Hagan. When, on the first morning of the craning out, the planned crane broke down he was able to reorganise the operation and he and his team, with the assistance of boat owners and helpers, had all of the boats craned out on the three allotted days.

The Club have tried to make things easier this year for all members with the introduction of online booking and payment for Winter Storage and use of the Club facilities. Please continue to use this system as it automatically alerts the relevant Captains and ensures the smooth running of the Club's facilities.

We have had a few instances this year of unauthorised berthing on both the Dingy and main pontoons. Bylaw 5.6. allows for a charge of £10 per day for contravention. Please contact me if you need to leave any vessel unattended.

We would also ask that cars are not left unattended in any areas other than the car park.
